Helps

1. Impress upon the children that safety is very important: no jumping into water without knowing it is safe and free from rocks and sticks, etc.; no swimming during a storm; no swimming unless an adult is present; no depending on flotation devices for safety.
2. Work with the children so they may each float without fear.
3. Have them practice holding their breath and floating face down, then come up for air and keep floating.
4. Place two stones without sharp edges in water just over their heads. Have each child dive down to pick them up.
5. Play a ball game in the water so the children will have a good time while they are learning to be less afraid of water.
6. Three things you could do to help a person who is drowning include: running for help, reaching a stick out for him/her to grab onto, throwing a rope out to him/her.
7. Teach proper kicking and arm and hand strokes. Become enthusiastic about the Adventurers' willingness to achieve.
