Share and Care

We get a few questions about the languages in which Prophecies Decoded will be delivered. Past events have normally been offered in at least Spanish and some have extended coverage to include French and Portuguese.

Reorganization and ministry growth allows for doing more, but in some cases it actually limits what can be offered. Now that Ethnic Ministries has grown to become a department of the NAD, they have many people groups to nurture and support. Activities and services must fit under one big umbrella, sometimes not covering all that the ministry would like to provide.

Hispanic ministries began doing NETs in their own language thereby reducing the need to participate in the English language NET. Many factors entered into the decision to offer Prophecies Decoded in the English language only.

Because of that decision, Spanish-speaking congregations are encouraged to watch for and plan to participate in the next La Red (NET) series to air on Esperanza TV in 2012. The series, October 13-20, featuring popular Hispanic speakers, will focus on reaching youth for Christ.

A Lifestyle of Evangelism

What it is and is not

- ❖ Evangelism 360 happens year round
- ❖ It is not an event, but rather a process.
- ❖ It does not begin and end with a series of evangelistic meetings.
- ❖ It is a process that begins with sowing, followed by growing, and then reaping.
- ❖ It is this natural organic approach to evangelism that Jesus, and all of scripture promotes as the only true approach for experiencing consistent success in evangelism.

Dr. Ron Clouzet and Dr. Michael Hasel from Southern Adventist University will take you through Egypt's Valley of the Kings, the pyramids, and the mysteries of the mummies, including the thrilling discovery of the tomb of Tutankhamun. You will see how archaeological data brings Bible stories to life.

“Inscriptions and other discoveries in the land of the Bible attest to the importance of archaeology as a tool for understanding the Bible. But what about archaeology as a tool for evangelism?” queries Dr. Hasel. He answers his own question by saying, “If you want to convince people about the truths presented in God’s Word, isn’t it important to establish first that the Bible is reliable in what it portrays as history? If you do not begin with those basics in today’s postmodern society, you will be speaking past people’s most basic question: Can I rely on the Bible?”

For NET 2011, *Astonishing Discoveries in the Land of the Bible* will lead into the main series, *Prophecies Decoded: Can the Past Reveal Your Future?* “Let’s work together to make history for God’s kingdom and the life of the people in your community,” urges Clouzet, speaker for NET 2011.

Plan to host the Archaeology seminar in your church by inviting the community.

La Voz de la Esperanza Effort in New York City

[La Voz de la Esperanza \(The Voice of Hope\)](#) radio program is the North American Division's Hispanic media ministry and producer of radio and television programs. As part of NAD's emphasis on large-city-evangelism and their own overall evangelistic efforts, La Voz began a major evangelism initiative along with both the Greater New York and the Northeastern Conferences in New York City, October 2010, forming hundreds of small Bible study groups. Their goal was "1100 baptisms in 2011." They believe they are currently on target with more than 450 baptisms as of early June.

A four-day reaping event led by La Voz Speaker/Director Frank González will be held at the world-famous Avery Fisher Hall of Lincoln Center for the Performing Arts, August 31 to September 3. It will mark the beginning of La Voz de la Esperanza's 70th anniversary. The resulting programs will be recorded for later telecast throughout the Spanish-speaking world. La Voz began in 1942 and is America's longest-running Spanish-language radio program, broadcast on more than 1,300 radio stations worldwide.
